ABOUT ME

I am a proactive individual with a strong work ethic, known for being an excellent team player, organized, and responsible. I am passionate about learning and have a deep love for computer science.

As a self-taught and independent learner, I constantly strive to expand my knowledge and stay up-to-date with the latest developments in the field. I am driven by a desire to become a valuable asset within your organization, contributing to project development and success.

In pursuit of professional growth, I am eager to meet new people, take on challenging opportunities, and continuously improve my technical skills. I am seeking a dynamic position where I can apply my enthusiasm, dedication, and expanding expertise in the IT industry.

EXPERIENCE

Personal Project: Development of an E-commerce Website with PayPal Integration.

Independently conceptualized, designed, and developed an e-commerce website for a local business as a personal project. Utilized programming languages such as JavaScript, NextJS framework and TailwindCSS to create a visually appealing and user-friendly online store. Integrated PayPal as a payment method, allowing customers to securely complete transactions on the website. Implemented essential e-commerce features such as product listings, shopping cart functionality, and order management systems. Showcased the completed e-commerce website, including the PayPal integration, as a prominent example in my portfolio, highlighting my practical skills in website development and ability to create functional online stores.
