

OneTap

Personal Finance Mobile App Case Study

Track expenses, income and
monthly balance in one simple flow.

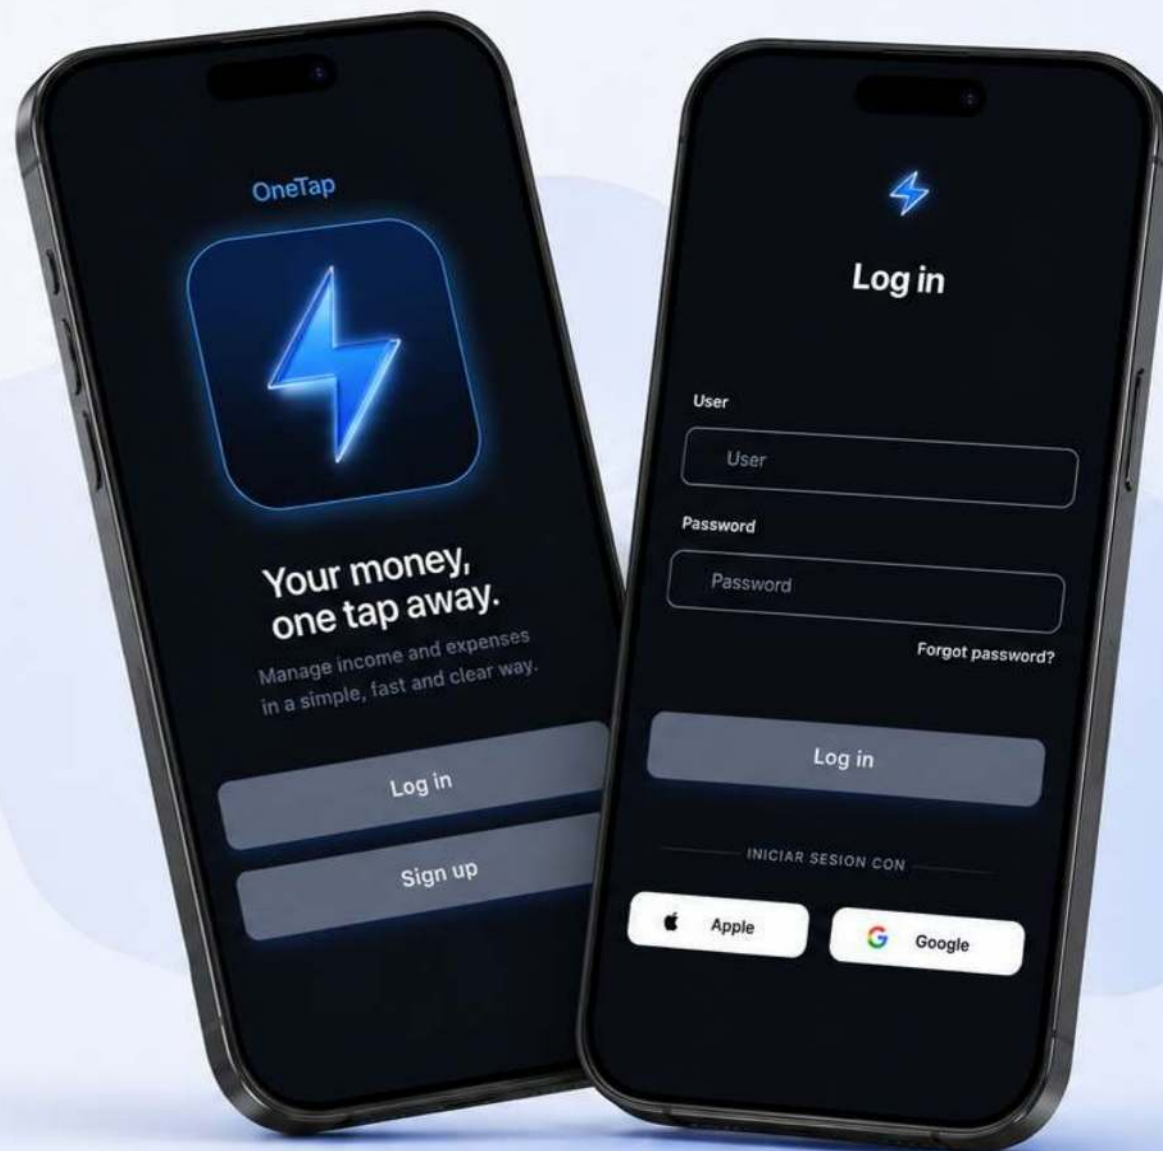

UX/UI Case Study • 2026

By Agostina Aldana Boris

Your money, **one tap** away.

OVERVIEW

OneTap is a personal finance mobile app that helps users track their income and expenses in a simple, fast and visual way.

MISSION

Empower users to take control of their money by making financial tracking effortless and meaningful.

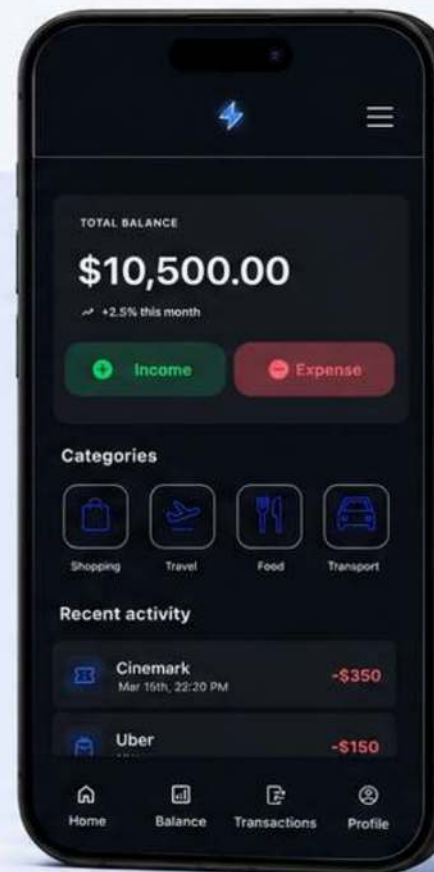

VISION

To become the everyday financial companion that helps people build better money habits.

VALUE PROPOSITION

OneTap simplifies personal finance with a clean design, quick logging, and a clear overview of what matters most: **income, expenses and balance.**

AT A GLANCE

Mobile App
iOS & Android

Core Focus
Track income, expenses & monthly balance

Target Users
Young adults and professionals who want clarity over their finances

Key Benefit
Quick logging.
Clear overview.
Better decisions.

Status
UX/UI Case Study
2026

TARGET AUDIENCE

Who are they?

People who want to manage their money better but don't have time for complicated tools.

- ✓ Ages 20-40
- ✓ Use mobile apps daily
- ✓ Want simplicity and clarity
- ✓ Care about saving and financial goals

THE PROBLEM

Many people struggle to track their money consistently. Daily expenses are often recorded late or not at all, financial information feels scattered, and users lack a clear overview of income, expenses, and monthly balance. As a result, managing personal finances becomes frustrating and easy to postpone.

Delayed expense tracking

People often forget to log expenses in the moment, which makes records incomplete and unreliable.

Scattered financial information

Income, expenses, and categories are often spread across different views or tools, making it harder to stay organized.

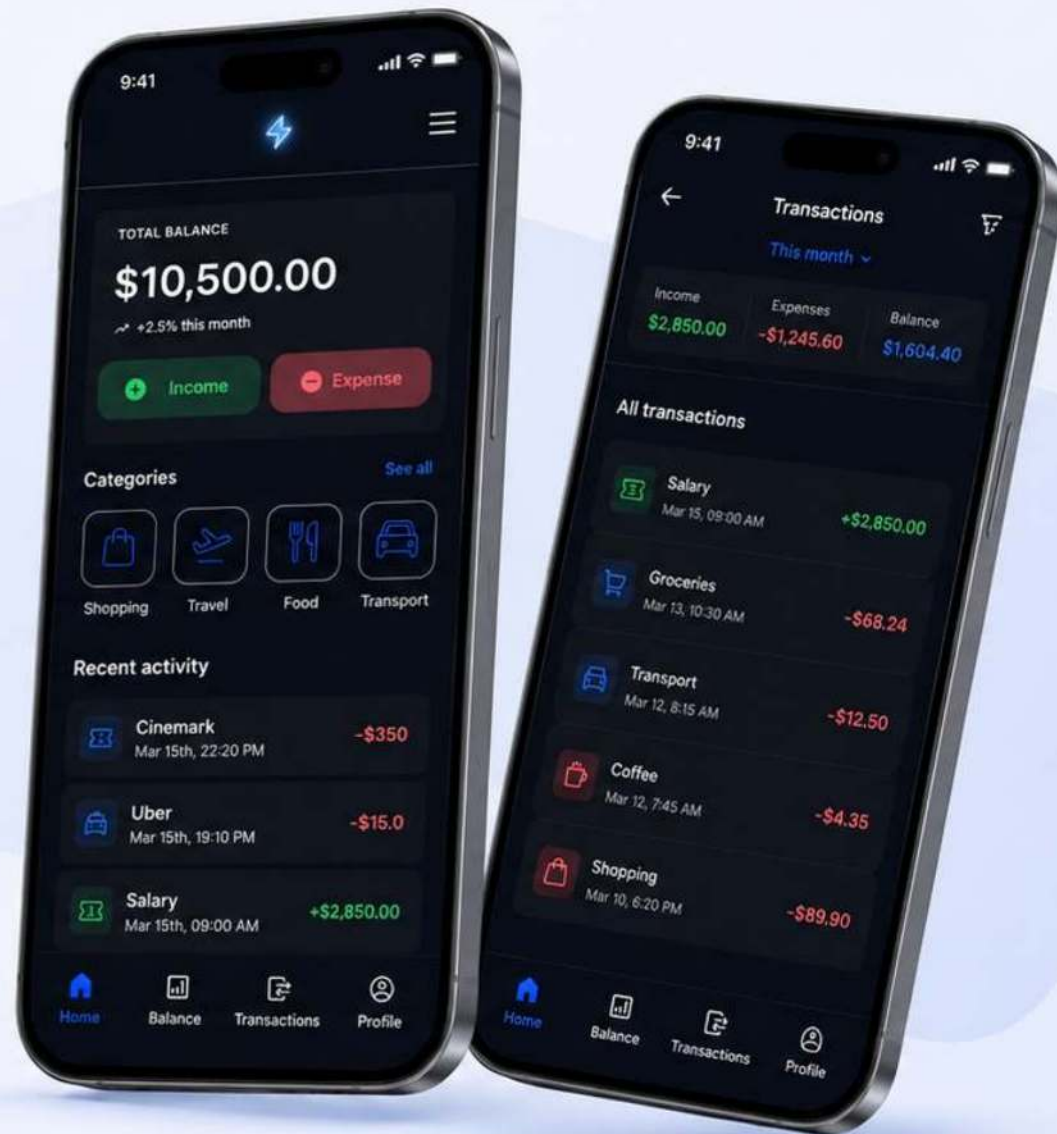

Lack of financial clarity

Without a simple monthly overview, users struggle to understand spending habits and make better decisions.

The challenge was to create a **faster, clearer, and more accessible** way to capture daily transactions and understand personal finances at a glance.

03

Benchmarking

We analyzed similar apps to **identify design opportunities**.

Moneyfy

Fast and visual
manual tracking.

Fintonic

Automation and
financial analysis.

Wallet

Account management,
categories, and charts.

Criteria	Moneyfy	Fintonic	Wallet	ONETAP Opportunity
 Navigation	Very fast	Automatic / less manual	2 – 3 steps	Prioritize immediate tracking 
 Vocabulary	Simple and everyday	More technical	Clear, but more extensive	Use clear language 
 Design	Clean and visual	Balanced	More complex	Simple and direct interface 

Identified opportunity

ONETAP can stand out by reducing steps, using clear language,
and helping users manage daily expenses without overwhelming them.

We defined a simple MVP focused on **everyday financial control**.

Included at launch

- ✓ Immediate expense tracking
- ✓ Simple categories
- ✓ Monthly income setup
- ✓ Automatic calculation of available money
- ✓ Daily expense history
- ✓ Basic category visualization
- ✓ Basic visual feedback
- ✓ Quick expense editing

MVP Goal

Validate a fast, clear, and frictionless experience.

Postponed for future iterations

- ★ Advanced feedback
- 📊 Expanded statistics
- 🎯 Savings goals
- ⚖️ Smart comparisons

Total spent today

Simple categories

05 Personas

We defined two user profiles with specific needs related to **everyday financial control**.

Martín

The variable independent worker

34 years old • Independent worker

Goal: To have a clear monthly overview in order to anticipate months with lower income.

Validated frustration:

He records expenses inconsistently. He struggles to stay consistent because the process feels tedious.

- Uses his phone throughout the day.
- Prefers simple charts.
- Avoids apps with too much configuration.

Lucía

The practical controller

27 years old • Administrative employee

Goal: To gain clarity about her daily expenses without spending extra time or mental effort.

Validated frustration:

She wants to track expenses, but when the process requires too many steps, she abandons it.

- Heavy mobile phone user.
- Prefers simple and visual apps.
- Does not connect bank accounts.

06 POV

We defined a clear point of view to focus the design on a **real user need**.

User

Juan, 32 years old

Need

To track daily expenses quickly and frictionlessly.

Insight / frustration

When the process requires too many steps, he postpones tracking and feels like he loses control of his money.

“

Juan needs a **fast and simple** way to track his **daily expenses** because when the process is slow or tedious, he postpones the task and feels like he loses control of his money.

ONETAP

07

Storyboard

Visualizamos el recorrido del usuario antes y después de la **solución propuesta**.

1 Contexto

Los gastos pasan en segundos.

Juan está en la ciudad, usa el celular y paga gastos pequeños todos los días.

2 Fricción

← Nuevo gasto

Monto	\$ 45.000
Categoría	Transporte
Cuenta	Bancaria
Fecha	Hoy
Notas	Opcional

Guardar

Registrar cada gasto lleva más tiempo del que tiene.

Muchos pasos, campos y opciones hacen el proceso lento y tedioso.

3 Abandono

Después... nunca.

Decide dejarlo para después y el gasto no queda registrado.

4 Problema

Cuando Juan no registra, pierde el control.

Más tarde no entiende bien en qué se fue el dinero y pierde claridad financiera.

5 Solución

← Nuevo gasto →

✓

\$ 45.000

Café

Hoy, 09:24 AM

Bancaria

Listo

Un gasto. Un tap.

Con ONETAP registra un gasto en un solo toque, de forma clara, rápida y sin fricción.

6 Cierre

ONETAP

Hoy

Café	\$ 2.800
Transporte	\$ 11.000
Almuerzo	\$ 13.000

Total del día \$ 27.000

Medium Fidelity

We refined the visual hierarchy, the components, and the main navigation before the final interface.

CORE EXPERIENCE

OneTap helps users quickly register income and expenses, review movements in one place, and understand their monthly balance without friction.

Quick transaction logging

Add income or expenses in a fast, lightweight flow.

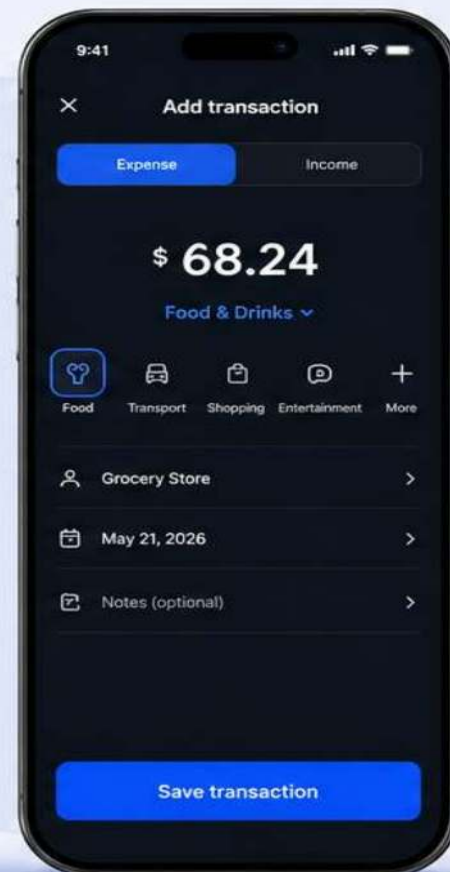

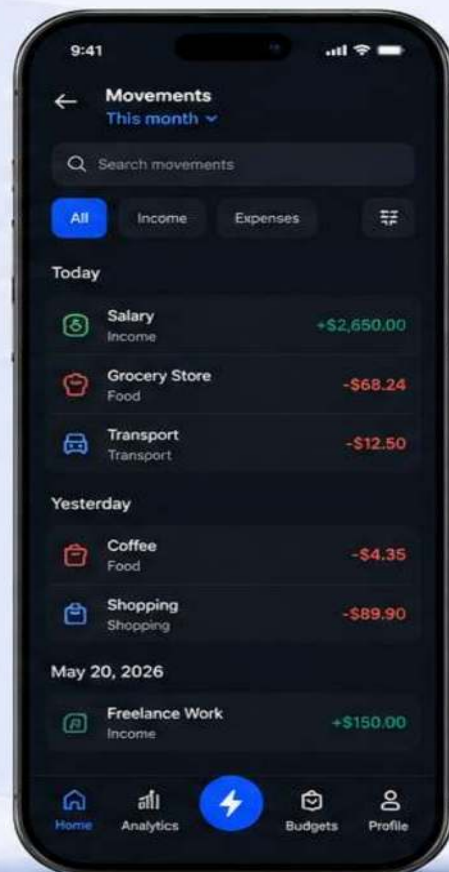

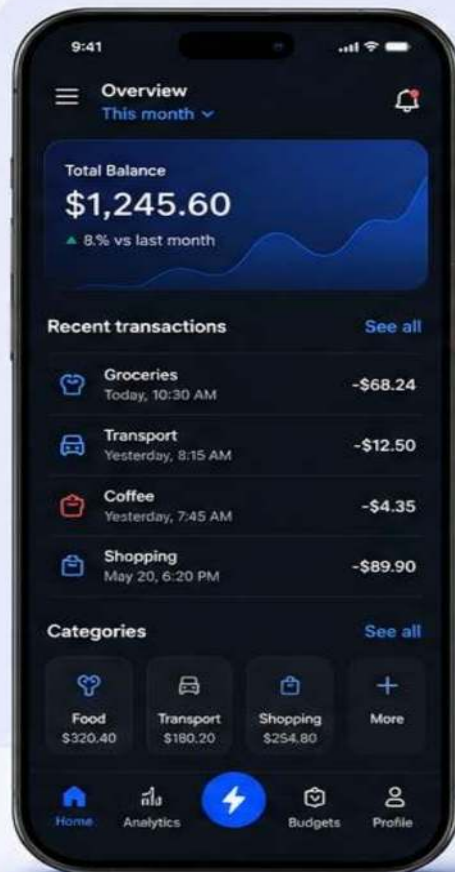

Centralized movements

Review, search and organize all transactions from one place.

Clear financial overview

See balance, spending and categories at a glance.

Log

Add income or expenses in seconds.

Track

All movements are organized and easy to review.

Understand

Get a clear picture of your balance and financial health.

/ FINAL UI

FINAL UI

The final interface brings OneTap's mission to life with a clean, intuitive and trustworthy experience that makes managing your money effortless.

Clean fintech aesthetic

Calm, trustworthy visuals with a clear hierarchy that builds confidence.

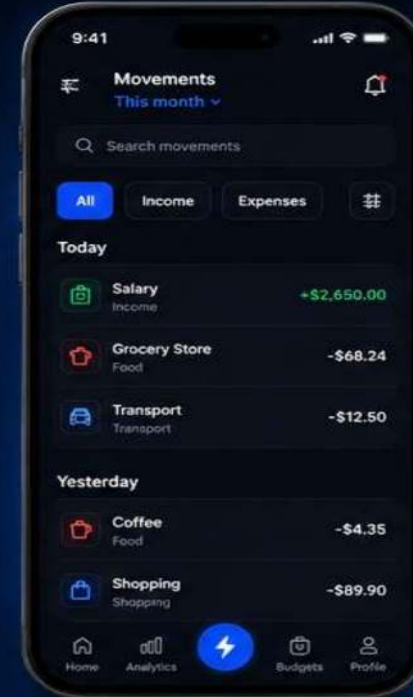

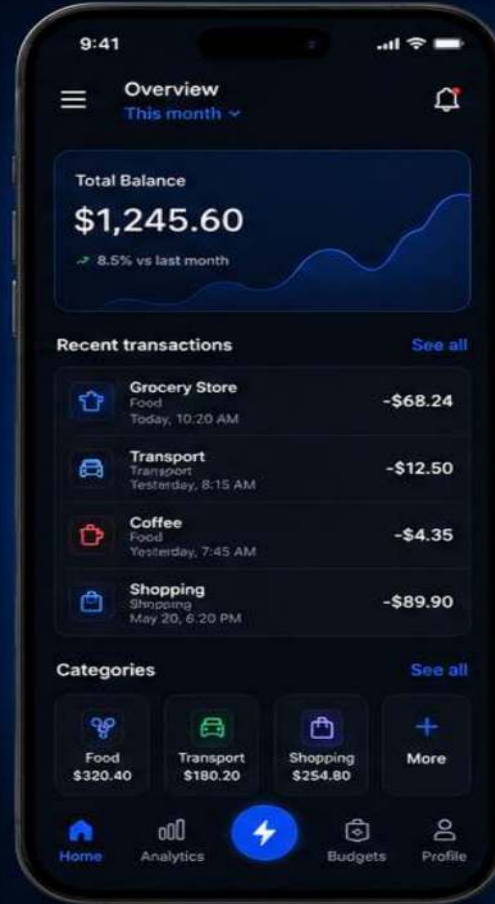

Fast transaction flow

Quick and effortless entry for income and expenses in just a few taps.

Consistent component system

Reusable cards, filters and navigation patterns for a seamless experience.

ADD EXPENSE / ADD INCOME

OneTap makes transaction entry fast and frictionless by guiding users through a lightweight flow to capture amount, date, and category in just a few steps.

Fast amount entry

A numeric keypad keeps the flow quick and familiar.

Simple categorization

Users can assign a category in one tap.

Frictionless capture

Minimal steps help users log expenses or income in the moment.

12. Usability Testing

Summary of findings from 5 users

**5**

users tested

**4/5**

completed the flow
without major difficulties

**Key findings:**

Transactions, search,
and amount entry

WHAT WORKED

- ✓ Clear access to the app
- ✓ Main actions were easy to identify
- ✓ Simple and intuitive navigation
- ✓ Monthly balance was quickly understood

WHAT DIDN'T WORK

- ! Low visibility of Transactions
- ! Search bar was not functional
- ! Amount input was not interactive
- ! Lack of detail in categories

RECOMMENDATIONS

- ✓ Highlight access to Transactions
- ✓ Complete pending prototype functions
- ✓ Improve the system's visual feedback
- ✓ Strengthen the hierarchy of the monthly balance

OUTCOME / LEARNINGS

OneTap resulted in a clearer and more actionable finance-tracking experience. By simplifying transaction entry, centralizing movements, and improving monthly visibility, the product became easier to use and easier to understand.

Outcome

Faster logging

Users can record income and expenses with fewer steps.

Transaction added
2.4s ↓ 40%

Better organization

Transactions are centralized and easier to review.

All in one place

Clearer balance overview

Monthly financial status is visible at a glance.

Total Balance

\$1,245.60

↑ 8.5% vs last month

More confident decisions

Better visibility supports smarter money habits.

On track
Great job!

Key Learnings

1

Simplicity reduces friction in everyday finance tasks.

2

Centralizing income and expenses improves scannability.

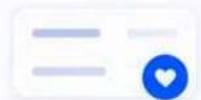

3

Clear hierarchy helps users understand balance faster.

4

Small UX refinements can make financial tracking feel more approachable.

This project reinforced the importance of combining **clarity**, **speed**, and **trust** when designing personal finance experiences.
