Product designer with a background in frontend development. I design B2B workflows and responsive interfaces, from user research and prototyping to design systems, developer handoff, and production implementation.

Experience

Savergy · Product Designer | Jun 2026 – Present

- Sole product designer for an industrial energy platform. Design responsive product interfaces and review UI with two developers before implementation.
- Built a reusable Figma component library and wrote design guidelines to support consistent screens and handoffs.
- Designed and built Savergy's production landing page, taking a Figma prototype to a scroll-driven React and Vite site.

Independent Projects · Product Designer | Sep 2025 – Present

- NINO: Mapped a container rental operation and designed a B2B workflow connecting rentals, logistics, and payments.
- Bondly: Designed a mobile app for in-person meetups based on interviews with 7 users and 2 venues. Tested the prototype with users.
- Frameo and OneTap: Designed in Figma and shipped live builds. Ran usability tests with 12 and 5 participants, respectively.

Ingerba · Frontend Developer | Jan 2023 – Jun 2024

- Partnered with designers to implement responsive interfaces in React and Next.js and turn recurring layouts into reusable components.

ID for Ideas · Frontend Developer | Jun 2022 – Dec 2022

- Built responsive web interfaces and reusable components from UX/UI designs using HTML, CSS, JavaScript, React, and Next.js.
