English Translation Degree

LANGUAGES

Spanish - Native

English - Professional working proficiency

PROFESSIONAL SUMMARY

UX/UI Designer with professional frontend experience. I design clear, accessible, and visually polished digital products, combining research, information architecture, wireframing, prototyping, usability testing, UX writing, UI design, and technical thinking. My frontend background helps me design realistic interfaces and collaborate smoothly with developers.

PORTFOLIO PROJECTS

ONETAP - UX/UI Case Study

Personal finance mobile app

- Designed a mobile experience to help users manage income, expenses, transactions, categories, and monthly balance with less friction.
- Worked across research, IA, user flows, wireframes, prototyping, usability testing, UX writing, and UI design.

FRAMEO - UX/UI Case Study

AI-powered streaming recommendation app

- Designed a product concept that helps users decide what to watch based on mood, time, context, and streaming platforms.
- Built user flows, wireframes, high-fidelity screens, UI components, testing material, and product documentation.

EXPERIENCE

UX/UI Designer - Independent Projects

Sep 2025 - Present

- Designed mobile UX/UI case studies focused on personal finance, entertainment, and product usability.
- Conducted research, heuristic evaluations, user flows, wireframes, prototypes, usability tests, and UI iterations.

Frontend Developer

Ingerba - Full-time | Jan 2023 - Jun 2024 | Remote

- Implemented responsive user interfaces from UX/UI designs using HTML, CSS, and JavaScript.
- Translated wireframes and prototypes into functional interfaces across desktop and mobile.

Frontend Developer Intern

ID for Ideas - Internship | Jun 2022 - Dec 2022

- Assisted in building responsive layouts, visual components, and basic interactions for web projects.
